

POPUP – Take your merchants to new heights.

Increase retention, merchant acquisition and brand recognition.

Now, you can **save as much as 60%** when you upgrade your merchants from any non-gateway terminal to our gateway-powered P Line.

But **POPUP** is not only an upgrade program. With our gateway-powered P Line, your merchants gain access to cutting-edge tools designed to enhance their business and boost their revenue. **POPUP** increases merchant satisfaction and drives long-term retention for you.

Get Gateway Power at Incredible Pricing

Our **POPUP** program allows you to seamlessly upsell your merchants from their non-gateway terminals to our advanced, secure, gateway-powered Android P line – at significantly reduced prices.

Why Upgrade?

Switching your merchants from their non-gateway terminals to iPOSays, Dejavoo's innovative gateway is a smart and simple move. With iPOSays, you'll offer your merchants the latest in payment technology – safer, faster, and packed with features designed to drive business growth for both them and you.

The Benefits of iPOSays

A true omni-commerce solution with features that include QuickBooks integration, CloudPOS (recurring billing), enhanced data collection L2/L3, True Cash Discount, SPLn, Dejavoo's fast and secure integration tool, Tap-to-Pay on iPhone with iPOSgo! Retail and restaurant tools that include multi-location reporting, tip adjust after batch is settled, table mapping, split ticket, and more.

Take the Next Step

Ready to connect your merchants to the P Line and the iPOSays gateway? To make this offer even more tempting, we'll even accept non-Dejavoo terminals through **POPUP**. Sign up today to [get started](#).

* This exclusive upgrade has no set time limit, allowing you to replace non-gateway terminals as needed.

**To honor these prices, a reseller agreement and addendum for iPOSays with the program's terms and conditions must be executed or updated.
