Dejavoo value proposition

POS technology built to support and service ISOs, agents, resellers and their merchants.

- Dejavoo has been a trusted, dependable partner for ISO's and ISV's for over 30 years
- We don't compete with our customers
- We are growing with over 200 employees – 60% engineers, 30% service, 10% admin
- Global presence – North and South America, the EU and the Middle East
- Reliable – 1.7mm terminals supported along with the most advanced payment software empowering the ISO offering
- **The Power of Choice** – A variety of hardware and software products, affordable pricing, value add, white label

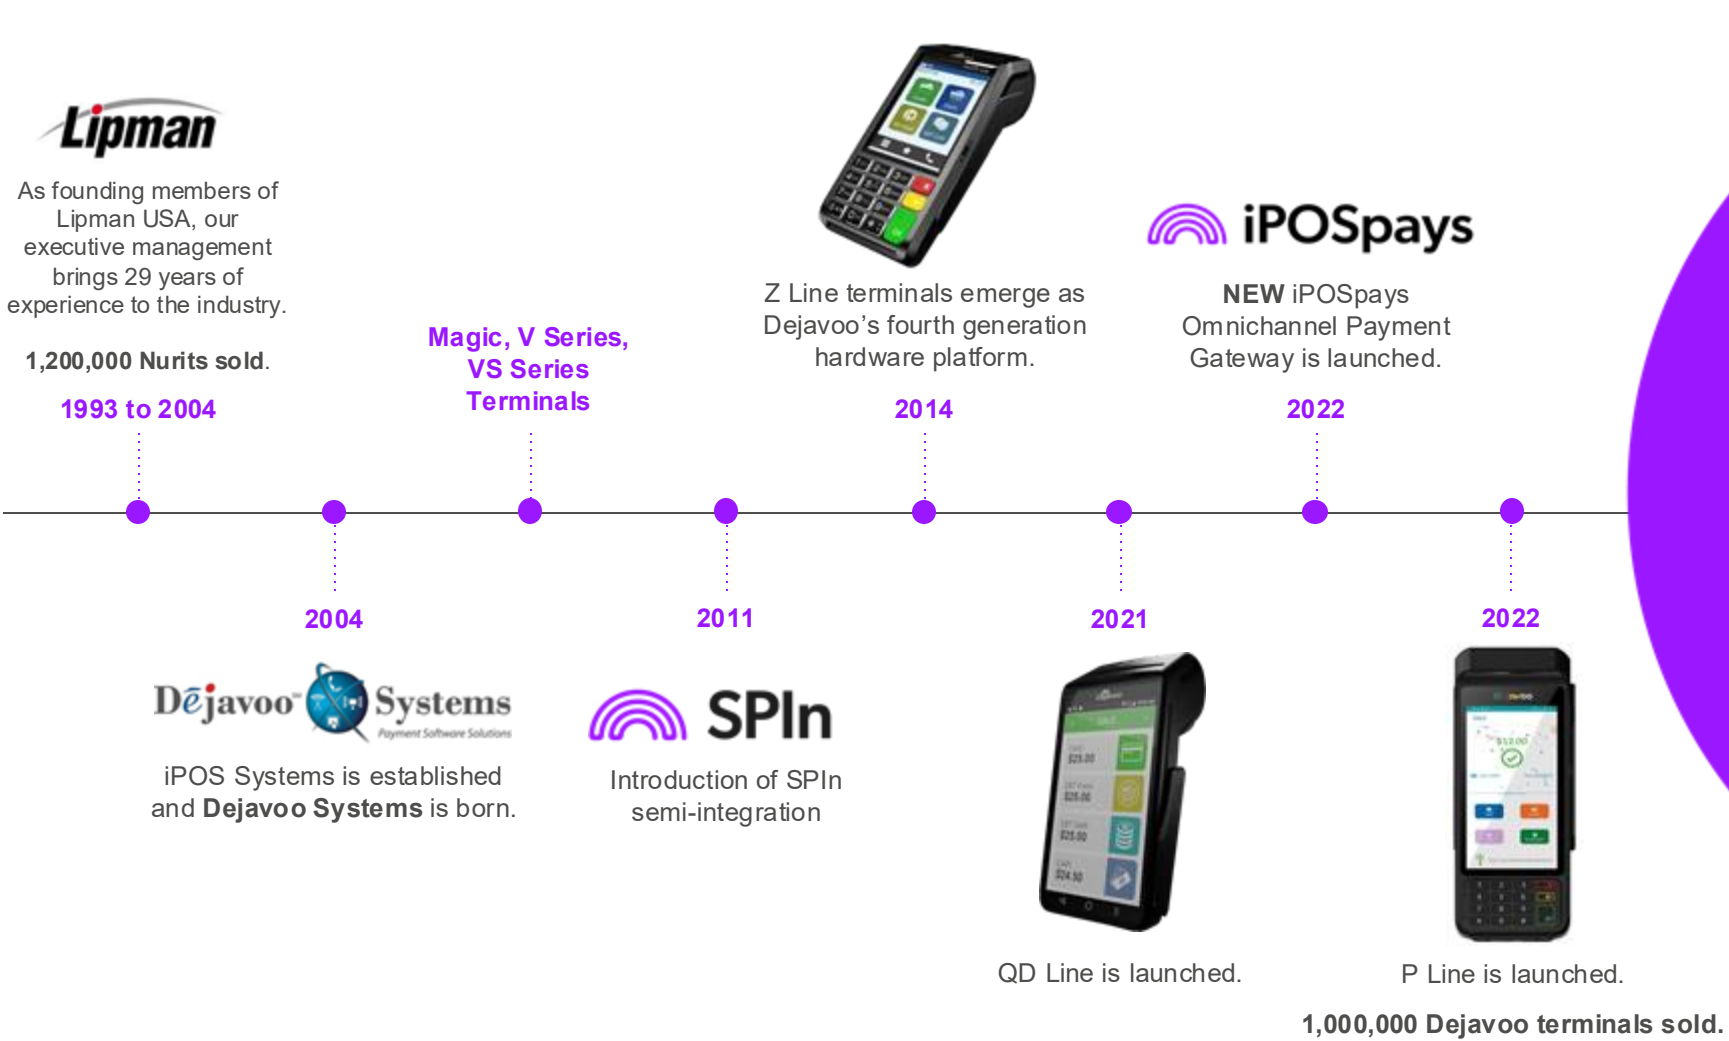

Dejavoo value proposition (cont.)

POS technology built to support and service ISOs, agents, resellers and their merchants.

- We are host-agnostic with a choice of processors and multiple processor certifications
- iPOS pays is an innovative omni-commerce gateway with industry-leading features for all types of businesses with multiple payment options and robust reporting through a smart gateway
- Cloud Driven - POS solutions with a value-add (Cloud) component: DejaPayPro, P line, QD line (optional), Terminal Management System, VAS and Gateway
- Hardware for every merchant - one Linux legacy line (6 terminals) and two lines of fast and secure Android terminals (8 terminals)
- SPIn – Fast and secure payment integration – More than 550 integrators with over 220,000 on-line merchants

We seek to expand our existing partnerships by providing additional value through our innovative solutions.

The journey of the Dejavoo terminal

“ Always ahead of the curve, we ensure that our partners truly benefit from our innovative development, depth of experience and trusted reputation. ”

Dejavoo's payment programs

Dual Pricing

- Cash or credit let your customers choose.
- Adjust pricing based on market conditions, consumer demands or competitive pressures.
- Treat debit cards the same as cash.
- No matter how your merchants choose to apply their dual-pricing strategy, Dejavoo does the heavy lifting.
- We help create the calculations in their POS system.

True Cash Discount

- TCD is Dejavoo's proprietary, patent-pending payment program.
- Merchants save money on processing fees.
- Customers are rewarded when they pay in cash.
- Merchants offer a cash discount from a set price list.
- Reports and receipts do not mention fees, only available, saved or unrealized discounts.

Dejavoo's payment programs (cont.)

Surcharge

- Visa regulated compliant surcharge
- Controlled "Cap" at 3%
- BIN range smart (credit only ranges)
- Percent or fixed rates available
- Line item "surcharge" name
- Optional disclaimer available
- Possible to add "Dual Pricing" cosmetic in certain states
